Pace's Paratransit TripCheck

Manage your paratransit trips in one convenient place

Rev. 04-17-24

TripCheck is your ticket to a smoother ride

We know our riders have places to be and schedules to keep, and we're always looking for new ways to help them get from place to place.

ADA Paratransit and Dial-a-Ride passengers can keep track of rides with Pace TripCheck.

TripCheck is a tool to view and cancel scheduled rides without having to call the Call Center. You can access it by phone, online at: www.PaceBus.com/Tripcheck or download the 'Pace TripCheck' mobile app today.

Here are other things to keep in mind when planning your trip:

ADA-certified riders can ride a taxi in the City of Chicago for a discounted fare, which can be faster. Enroll at PaceBus.com/TAP.

ADA-certified riders can book Uber or UZURV trips for a discounted fare at a moment's notice. Enroll at PaceBus.com/RAP.

You get **free rides** on fixed route buses. On those, you don't need to make a reservation and stops are scheduled for easier planning.

Public transit means sharing your ride. Your Paratransit ride might not always take the most direct route, and sometimes other riders may cause delays. Expect your ride to take about as long as a fixed route bus.

Please note: Paratransit trips are considered on time if the vehicle arrives within 30 minutes of the scheduled pickup. This accounts for traffic, weather, and other delays.

Who can use TripCheck?
